SERIES SPECIFICATIONS

Lag bolts (or lag screws) are used to affix materials to wood, such as wood-to-wood or metal-to-wood. These can also be used to attach objects to concrete when used in conjunction with lag expansion shields. Screws are threaded to at least two-thirds their length

PHYSICAL SPECIFICATIONS

Primary Fastener Type

Bolt

Secondary Fastener Type

Lag

Head Type

Hex

Material

Zinc Coated Steel

Size

1/4

Package Type

Jar

Length

1-1/4

Package Qty.

100
