SPECIFICATION & FEATURES

DESCRIPTION:

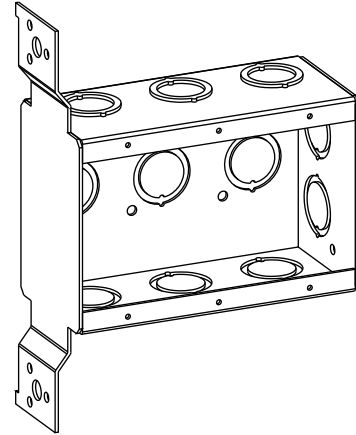

Centaur's Masonry Boxes are used in the installation of electrical fittings and other devices in masonry walls. They are constructed from 16 gauge galvanized steel. These 2-1/2" deep, welded boxes with device ears include an FB bracket to directly mount on the flat side of a stud. Models range from 3 to 5 gang switch boxes.

CERTIFICATION:

UL file E227970, conforms to UL514A. acceptable for use in 2-hour fire rated walls.

CM-MSB
